She wishes to be remembered to you all.

She will probably come to Washington soon.

She was much obliged for what you sent her by me.

I then went back to 12th Street, and stayed up until about 12 o'clock.

Schomburg and myself then went to bed (at the hotel) intending to catch the 9 o'clock train, but as we woke up about 9.15 we changed our minds and took the 10 o'clock train.

Got here at 2, went to the room and got to chapel at 3.

Went to Packer Hall after this and got our Rosters.

I will have to close now.

With love to all.

German more when I was home, I don't feel quite safe about passing it, but I have 2 weeks yet. I started out pretty well to-day made 10 in trig & german. I am going to try to do good work this term, especially in Math. They are giving review lessons in trig about 15 pages at a time. It comes pretty hard on me as I did not have it before. I had to study 3 hours on my own alone last night, but I am going to get it down somehow or other. Chemistry does not begin until Wednesday. To David Schouberg at 6:30 and went up to the place on 12th Street. I then called on Miss Jenny, she is looking tired, says she has been reading too much at night.
to go away on account of sickness
the absences cannot operate to have
you bired.
I had a nice time in Phila. saw
Miss Jenny at church, and then went down
to the Depot. Kiefer a friend of Schooner's,
said that Schoenberg would come on
the 6:50, as his eyes were troubled
but
I went over to see Mr. Worcester
and saw the files.
Mr. W. and myself went down
the U of P buildings and saw
them. Then we went to the church
where I signed the roll of members.
I then took my bag up to the P.O. Post
and came back to the church.
Mr. Worcester was teaching a teachers
Class when I got there.
Among the teachers was Mrs. Brigham.
She seemed glad to see me and
asked after all her Washington friends.
I do wish I had studied my
To Beth, Pa.

January 8th 41

Dear Papa,

I sent by express the books for Mill.
If he gets down what I have marked he will be all right.
To make the Math (Alg. + geom.) count he must pass his Latin.
He can pass his Arithmetic and have it count for a year but his Algebra and Geometry must be passed the year in which he enters the University. So if he passes his Latin he is admitted this year, and can then drop out of the class study his Greek and come in the class in another year.

Prof. Robinson says that no absences are excused under the new absence law but that if permission is given...
